BAIN Capital invested INR 1330 Crores in TARC Limited in May 2022, the transaction marks to be one of the largest investments aimed toward growth and development, in recent times in North India Real Estate Industry.

Bain Capital headquartered in Boston, Massachusetts is one of the world's leading private investment firms with approximately \$160 billion in assets under management that creates lasting impact for its investors, teams, businesses and the communities. Founded in 1984, Bain Capital pioneered a consulting-based approach to private equity investing, partnering closely with management teams to offer the insights that challenge conventional thinking, build great businesses and improve operations. Over time, Bain Capital has organically expanded this approach across asset classes to build one of the strongest alternative asset platforms in the world.

“TARC Limited is a progressive real estate group with a rich 40 years experience, having delivered quality projects in North India. They hold strategically located assets which present a great future potential to deliver value for the group and all stakeholders. We are pleased to partner with TARC Limited in their growth story.”

- BAIN CAPITAL

In the course of the last four decades, developing projects across Delhi-NCR, we have built strong domain capabilities through expansion of our land bank portfolio while conceptualising and executing projects across different verticals.

Our investments are made with a long-term vision to build a strong asset base with committed capital. With our deep understanding of the vibrant market of New Delhi, we have created land banks in the heart of the capital in prime locations that are both expansive in size and scope - thus, giving TARC a huge competitive advantage. We at TARC are geared up for the next phase of incremental growth, and seek to unlock immense value by creating a bouquet of marquee projects in New Delhi.

LAND HOLDINGS BY TARC LTD.

Life gives us a limited number of opportunities, to redefine who we are and to carve out new possibilities. The ambitious and the enlightened manage to own those defining moments, and set benchmarks that guide and influence all their choices henceforth. Once the limits have been pushed, there's no looking back. What follows is an inexorable march ahead, that brings with it new milestones and satisfaction. It's a path that leads the chosen few to a hallowed ground,
